LETTER BOMB DETECTOR LBD-II LED

MODEL : LBD-II LED

Technology: Analog Signal Processing

Power: Works on AC as well as DC

Dimensions: 480 x 410 x 290 mm.

Weight: less than 12 kg.

Detection: • Detects ferrous and non-ferrous metals with high sensitivity.
• Detects almost all DIP integrated circuits, smallest of button cells, detonators used in letter bombs.
• Its rough and tough and easy to use.
• Scans up to a small mail packet of 38mm thickness x 270mm width.

Operation: • No Calibration needed.
• Visual and audio alarm.
• Integrated battery backup with built-in charger

Charger: It has low battery indicator by way of visual indication and long delay beeper.

Sensitivity: Minimum watch cell size of 6mm diameter x 2.5mm thickness of any metal or alloy.

Indications: Sharp Beep through buzzer.

Service Manual: Complete with technical details, circuit-diagram, calibration & test method. Test sample for checking the detector provided.
